

BIOAGE

BioAge Labs to Present at 25th Annual Needham Virtual Healthcare Conference

April 13, 2026

EMERYVILLE, Calif., April 13, 2026 (GLOBE NEWSWIRE) -- BioAge Labs, Inc. (NASDAQ: BIOA) ("BioAge", "the Company"), a clinical-stage biotechnology company developing therapeutic product candidates for metabolic diseases by targeting the biology of human aging, today announced that the Company will present at the 25th Annual Needham Virtual Healthcare Conference taking place April 13–16, 2026.

Kristen Fortney, PhD, CEO and co-founder, is scheduled to participate in a fireside chat on Thursday, April 16 from 3:00 PM to 3:30 PM EDT. Kristen Fortney, Dov Goldstein, MD, CFO, and BJ Sullivan, PhD, Chief Strategy Officer, will participate in one-on-one meetings. To access the live webcast of the presentation, register [here](#).

Replays of the webcast will be available in the investor section of the Company's website at <https://ir.bioagelabs.com/>, and will be archived for 30 days following the presentations.

About BioAge Labs, Inc.

BioAge is a clinical-stage biopharmaceutical company developing therapeutic product candidates for metabolic diseases by targeting the biology of human aging. The Company's lead product candidate, BGE-102, is a potent, orally available, brain-penetrant small-molecule NLRP3 inhibitor being developed for cardiovascular risk and retinal diseases. A Phase 1 SAD/MAD trial of BGE-102 is underway, with topline data including additional MAD cohorts anticipated in 1H26. The Company is also developing long-acting injectable and oral small molecule APJ agonists for obesity. BioAge's additional preclinical programs, which leverage insights from the Company's proprietary discovery platform built on human longevity data, address key pathways involved in metabolic aging.
